

FOX PRIMARY SCHOOL

Equal Opportunities

In Fox School we pride ourselves on the diversity of people who make up our school community; and we value the varied contribution that everyone can make to our learning.

We believe that all children, regardless of race, sex or class, can have high aims and that the school's task is to help them all achieve their potential. In order to achieve this, we will ensure that all areas of the curriculum are suitably resourced in ways that reflect the range of cultures and that encourage children to respect each others' languages and background.

We will similarly encourage parents to share their children's experiences and to offer their own as an aid and encouragement to learning. We will confront and discuss racist and sexist language or conduct; and through the positive enforcement of our behaviour policy we will do our best to ensure that all individuals in the school, including visitors, feel safe and are treated with consideration when they are amongst us.
